

The Family Network Group invite all dads and with a child who is Deaf or Hard or Hearing and interested community members to share in a great opportunity with the Fathering project and to meet with other dads and families.

The Fathering Project is a University of Western Australia-based non-profit team of professionals whose aim is to help fathers realize how important they are in a child's life and to give them advice on how to encourage their children. Their work is also aimed at father figures such as grandfathers, stepfathers, uncles, mentors, youth leaders, teachers, pastors and coaches, knowing that many children do not have much father contact at all.

**When: Wednesday 16<sup>th</sup> March 2016**
